

About kids' art

Children can learn a lot through art. As children draw, paint, and make collages, they are learning about the world (colors, shapes, and sizes of objects). When they use paints, glue, and different tools, children are planning, trying out new things, and solving problems. As children mix paints, they learn to understand one thing can make changes in another. Art lets children make choices, and more important is that it allows them to express their ideas and feelings through art. Let your child choose how they want to use the materials so that they can make their own artwork and enjoy the whole exploring process.

About the teacher

Xiaofei Zhang has bachelor's degree in Architecture and master's degree in Interior Design. She had 4 years of art teaching experiences in the United States. Ms. Zhang is familiar with various drawing media and passionate about helping kids to explore art.

About the class

Kids will explore various media including watercolor, oil pastels, Chinese ink, engraving and more! The program is designed to help kids to learn drawing techniques, express themselves with different drawing media, and grow their ingenuity.
