

Critical Thinking

Level I

- Teaching basic critical thinking skills and concepts through practice
- Introducing the thinking tools for problem solving and academic study
- Training objective, fair-minded and reasoning driven thinking
- Establishing efficient systems to achieve more in school and daily life

Trainer: Diana Cheng

Vice Principal/Academic Director of Charlotte Chinese Academy, Academic Life Coach & Financial Analyst

Diana has years of education experience as a teacher and an academic leader. This critical thinking curriculum is based on her years of study and substantial reading on the topic. The purpose of this course is to introduce practical thinking tools to the students that can help them thrive in their future life.

Why Critical Thinking matters?

- Enhance problem solving skills
- Encourage original thinking
- Inspire creativity and curiosity
- Form own opinion within massive information from social media
- Cultivate healthy decision making habit
- And much more...
